ARMOUR MAKES FIRST PRIVATE DEAL IN RUSSIA

Chicago Packer Sells a Shipment of Soap.

BY DONALD DAY.

(Chicago Tribune Foreign News Service.)
[Copyright: 1922: By The Chicago Tribune.]
RIGA, July 23.—The first trade transaction between a private concern in Russia and a private foreign concern since the abolition of the foreign trade monopoly was completed at Riga today.

Armour & Co. of Chicago, through their agent, J. C. Lutzke, shipped 2,000 cases of soap to a private cooperative trading company in Moscow. A second shipment, under the new trade control inaugurated by the bolsheviks, will leave tomorrow. Landford & Co., a British concern, is shipping 700 barrels of tallow to Moscow.

Obtain Soviet Permits.
Both transactions were completed by the concerns obtaining permits from the soviet trade representatives. These are difficult to obtain.
Mr. Lutzke made several small sales and the soviet government states that only concerns able to ship goods via Riga will have an opportunity to sell in Russia. It reports that the soviets are always in the market for lard, bacon, salt pork, tallow, milk, corned beef, soap, flour and sugar.

RUSSIANS BUSY IN BERLIN

BY GEORGE SELDER.

(Chicago Tribune Foreign News Service.)
[Copyright: 1922: By The Chicago Tribune.]
BERLIN, July 23.—With The Hague conference shattered, the Russians have begun concentrating all their business and political efforts on Germany, and every indication is that Berlin will become a center, second only to Moscow, for Russian affairs, despite the fact that the Russians will not accept the Russo-German treaty.
This week will be marked by a series of big Russian conferences here. M. Litvinoff and Krasin are coming from The Hague. Finance Minister Krotchinsky has arrived from Moscow, and M. Tchitcherine has returned from a vacation in Austria. L. C. A. K. Martens, former soviet representative in New York, is en route to Berlin.

Will Deal with Americans.
M. Martens' visit is believed to be for the purpose of dealing with numerous American business interests represented in Berlin, including Attorney Frank Walsh. There is also a report that M. Martens has become soviet ambassador to Germany.

It is reported that a new Russian policy, following the failure of all conferences, is to make contracts with big corporations instead of concluding political treaties.

Conferences have been arranged with Italian, Roumanian, and British firms.

STERLING KLAN INITIATES

Meeting, Ill., July 23.—(Special.)—Chicago and Rockford Klansmen gathered here Saturday night with local Klansmen and put on a spectacular show, taking a side of sleep before they crossed. It was the first demonstration held here.

Parliament Racer

H. G. Wells, British novelist and sociologist, frequently has been urged to stand for parliament. At last he has heeded the voice of the tempter and will try for a seat. According to his announcement, he will become the Labor candidate for London university. Mr. Wells "covered" the limitation of arms conference for The Tribune last winter.

JAPS SEAL GRIP ON MANCHURIA BY RAIL REBATE

Make Far East Republic Trade Dependency.

BY CHARLES DAILEY.

(Chicago Tribune Foreign News Service.)
[Copyright: 1922: By The Chicago Tribune.]
PEKING, July 23.—Coinciding with the evacuation of the maritime provinces of Siberia, the port of Vladivostok is virtually closed to North Manchuria, and the Far East Republic has become an economic dependency of Japan, through Nippon's grip on the South Manchurian railway.

Without the approval of communications relations and over a determined protest of John F. Stevens, chairman of the international technical board, the Chinese Eastern railway has fallen under Japanese influence, thus ending the long fight for Japan's domination of Harbin as a commercial center.

Triad by House Contract.

The railway has made formal covenants with the Manchurian railways, agreeing to accept a 5.5 per cent. rebate for every ton of freight originating beyond Harbin and consigned through Dairen. This is sufficient to attract to Dairen traffic normally reaching Vladivostok, even including points east of Harbin.

The deal was incidental to an issue by the Chinese Eastern railway of 1,000,000 gold rubles, 10 per cent. five year bonds.

Japs Masters of Manchuria.

It brings nearer to realization the Japanese plan for standardizing the gauge from Changchun to the Sungari river wherever in Harbin, thus making possible through shipments in Japanese cars from Japanese steamers operating in the Sungari and Amur rivers. It almost makes final the divorce of the Chinese Eastern railway from the Trans-Siberian railway, but more than that, it virtually completes the Japanese conquest of Manchuria, since the port of Vladivostok is unable to compete in shipments through Dairen, owing to the rebates granted in the latter area.

RESCUED INSTANTLY KILLED.

Cleveland, O., July 23.—(Special.)—A woman, Mrs. J. J. Brown, was rescued from a burning building today. She was found in a room on the second floor, and was taken to the hospital where she is now recovering.

AUSTRIA TO LIFT OUT

Factories Into Bank to Stabilize

BY FLOYD

(Chicago Tribune Foreign News Service.)

Vienna, July 23.—(Special.)—The Austrian government today announced that it had decided to lift out of the country all factories and industrial plants which had been seized by the German war party during the war. He is called "Culture," referring to the "Fascist" industries.

DANCER SPURNS DEMAND SHE BE EXILE, OUTCAST

Evan Says She Rejected
Whitney Proposal.

(Continued from first page.)

New York hotel he demanded that she accept his financial aid. Money that she borrowed from this admirer paid the expenses of Evan's hospital and subsequent nursing bills.

The research work done by Whitney detectives unearthed this fact and the Whitney crowd planned to produce the man in court should the case get beyond informal conversations. The broker volunteered to face immediate informal examination by the Whitney attorneys. He answered several artful questions, but finally shouted:

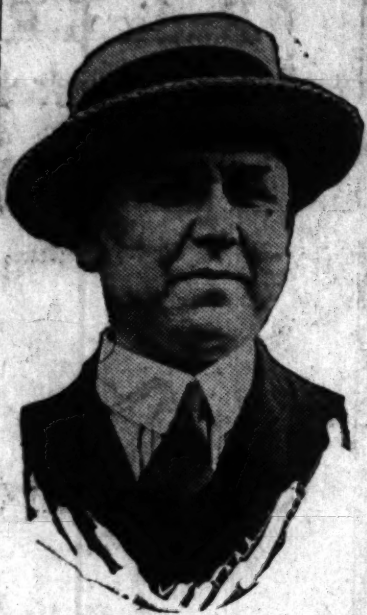

"If you mean 'Was I ever Miss Fontaine's lover?' I couldn't say truthfully that I know whether Evan is a man or a woman."

Possible Line of Defense.
Some inkling of the defense which Whitney will set up are known. An investigator was commissioned to establish evidence that Sonny Whitney's sweetheart was the sweetheart of many. He has related that he had not learned anything specific but he told a tale according to which young Whitney met Evan at a ball, became hopelessly intoxicated, and woke up next morning in Evan's room, looked across to where Evan's mother was sleeping on a cot in the same room, and said: "Where am I?"

The Whitney believed at one time that they had evidence which proved that Evan and her former husband were parties to a melodramatic conspiracy to force young Whitney into a desired marriage. According to this report, since exploded, Adair trailed his wife and Whitney into New Jersey, and, surprising them, demanded that Whitney "do the right thing by this defenseless woman."

A similar report—similarly exploded—was that Judge Charles Evans, Evan's grandfather, once pushed the muzzle of an automatic into Whitney's vest and tried to force him to agree to

NEGOTIATOR

an elopement to Ohio, object, matrimony.

Evan's "Fickle" Attorney.
Evan claims she has been singularly unfortunate with her legal help. None

of them sticks longer, she smilingly commented, than the proverbial cook. The most faithful of all her counsel is Charles F. Threlkeld, 289 Broadway, New York city, who took the case when the baby was 6 weeks old. Some time later a Chicago veteran of the bar, Leslie Whipp, was brought into the case by Evan's grandfather, who had known Whipp for many years. Acting somewhat as a friend of the family, Whipp took charge of all the love letters which were written from Yale to Evan by Whitney. They make a fat find, it is said, lively collection. Whipp's effort leading to nothing, Evan claims, she decided to transfer the case to Senator Brackett. Mrs. Fontaine was in Chicago at the time and asked Whipp for the return of the precious exhibits. Whipp refused, saying that he could give them to nobody but Evan. Evan then went to Chicago and met with a more inexplicable refusal. In this dilemma she turned to Charles S. Denoon, former governor of Illinois, who acted to have the letters returned to their owner.

Breaks Compromise Plan.
Truce was declared when Whipp accepted a compromise whereby both he and Evan secured photographic copies of the letters and the originals were locked in a bank vault pending settlement of his demands, for fees for legal services.

Evan relates that Whipp has estimated his due at \$10,000. In some way, which Evan cannot explain, an attempt was made to extract the fee from Whitney. Negotiations for a settlement had been near a satisfactory conclusion but were abruptly broken off by Sullivan and Nichol, who considered this unexpected demand extortionate. Now, it seems, Evan will again be abandoned by counsel. Spencer Eddy, a junior member of the firm which Senator Brackett heads, authorizes the

statement that his chief never brought suit against the Whitneys and did not contemplate doing so, explaining that Senator Brackett rarely undertakes a case involving breach of promise.

As a consequence Evan's case is now scattered all over the country. With exhibit A locked in a Chicago bank vault and the passionate diary in which she kept record of her lovers' meetings with Whitney in Brackett's keeping, Evan's next legal defender will face high problems of reconstruction.

WILL GET NEW LAWYER

Los Angeles, Cal., July 23.—(Special.)—You can be darned sure that another attorney, equally prominent, will be engaged to go on through with the case, "was the sentiment expressed yesterday by Evan Burrows Fontaine, oriental dancer, suing Cornelius Vanderbilt Whitney, when told of press dispatches announcing the withdrawal of ex-State Senator Edgar T. Brackett as her counsel.

"I talked with my mother in Long Island this morning," she said, "and she did not tell me anything about Senator Brackett withdrawing. If he

has, though, another attorney will be engaged."

"Is a complaint in the case being drawn?" she was asked.
"I don't know what is being done," Miss Fontaine's case has brought a "nothing to say" reply from the home of Harry Payne Whitney, whose son is visiting in Pasadena with her cousin. Meanwhile, the whereabouts of the younger Whitney remained somewhat of a mystery. At the home of his sister here, with whom he has been reported visiting, no one answered calls.
"Have you seen Mr. Whitney while here?" Miss Fontaine was asked.
"No, sir," came the emphatic reply.

POINCARÉ MEETS BRITISH AUG. 1 ON WAR DEBTS DEAL

Hopes to Pave Way for
Loan to Germany.

BY FLOYD GIBBONS.

[Chicago Tribune Foreign News Service.]
[Copyright, 1922: By The Chicago Tribune.]
PARIS, July 23.—Premier Poincaré is going to London Aug. 1 to discuss reparations and other pending questions with Prime Minister Lloyd George, it was announced today. He will be accompanied by M. Lasterie, finance minister, and Peretti Della Rocca, political director of the foreign office, and several experts.

The big idea in back of Premier Poincaré's mind, and the same is particularly true of Mr. Lloyd George, is to clear up the political atmosphere in Europe sufficiently, through an accord between France and Great Britain and then between the allies and Germany, to float a big international loan for Germany. France hopes the loan will be offered next autumn.

A loan of \$1,000,000,000, allowing Germany half for its own needs, would also cover its cash reparations necessities for three years, and for that period would remove practically all friction over reparations. Payments in materials, though doubtful, would bear much more lightly on Germany.

Will Reconvene Morgan Committee.
The Morgan committee of bankers will be convened early in September in the event that the London parley is successful.

The immediate question of a short moratorium for Germany to allow it to undertake financial reforms will practically be settled when the French premier goes to London. The British prefer to allow Germany a longer moratorium, but the British and French are agreed on the necessity for German financial reforms in the hope of stabilizing the mark, which will benefit French reparations and British trade. The French absolutely refuse to discuss lowering the total of reparations at a time when Germany is at its lowest economic ebb.

The premiers will also discuss aid for Austria, the settlement of the Danube problem, and peace between the Turks and Greeks. In the event of a general settlement, an Anglo-French pact is almost certain to be signed.

Premier Poincaré is expected to remain in London almost a week.

BRITISH DISCUSS DEBTS

LONDON, July 23.—Great Britain's debt to the United States and the possible effect on American public opinion of England's cancellation of her share of the German reparations and of the French war debts was discussed this afternoon at Chequers by Prime Minister Lloyd George and Sir Auckland Geddes.

One Good Foot Out of Seven

Painful feet differ from normal feet in the amount of the sole area under the instep that is used for weight-bearing. The natural weight-bearing or treading surface of the foot being the heel, outside half of the instep-width and the ball. In any degree of flat foot, too much of the sole-width is used, which means that some or all of the surface that should be arched and free from pressure is getting pressure. If any degree of cavus (hump foot) too little of the sole is used, and too much weight is thrown on the heel and ball. When weight is carried only on the natural treading surface of the foot, as when NATURE-TREADS are worn, callouses, corns, general foot aches and cramping and all other foot disorders quickly disappear.

What Doctors Say

(AS TO WRONG METHOD)

"It is the custom of the day when a person has weak feet to place in the shoe a plate or support to press against the arch. In the light of experience, this is both physiologically and mechanically wrong." ("Prevention of Weak Feet," JOURNAL OF AMERICAN MEDICAL ASSOCIATION, July 24, 1920.)

(AS TO WRONG METHOD)

"Arch supports should not be worn for weak or flat feet as they tend to decrease the muscular power of the sole of the foot." (MANUAL ON FOOT CARE AND SHOE FITTING for Officers of the U. S. Navy and U. S. Marine Corps.)

(AS TO CORRECT METHOD)

"The underlying principle in the satisfactory treatment of common foot defects consists in restoring weight bearing to those parts of the foot to which weight bearing naturally belongs. All other forms of treatment merely support or palliate." ("STATIC FOOT TROUBLES," in THE JOURNAL OF THE AMERICAN MEDICAL ASSOCIATION by the Supervising Orthopedic Surgeon of the U. S. Army, Dec. 14, 1918.)

"Every Foot Discomfort Is Nature's Call for NATURE-TREADS"

New Invention for Feet

Light, Cool, Comfortable, Healing
FOR MEN, WOMEN AND CHILDREN

Made in accordance with principles and rules outlined and laid down by the world's greatest orthopedic authorities.

Banish These Troubles

Away with callouses, corns, pains at ball of foot, cramped toes, Morton's toe, sore heels, run-over heels, and sore, tired, weary, aching feet caused by weak arches, weak ankles, flat foot, "hump foot," wrong weight distribution or improper foot posture. NATURE-TREADS will work wonders for your feet in a new and highly successful way. NATURE-TREADS will steal away your foot and leg miseries with a mild and healing swiftness that will pleasantly surprise you.

Nature-Tread Shop Success

Since opening our Chicago NATURE-TREAD SHOP, thousands of foot sufferers from this city and surrounding neighborhoods have flocked there. Heaps of arch supports, braces and elastic bands and other harmful, cumbersome, expensive and habit-forming devices have been thrown in our waste basket and abandoned. Scores of Chicago's leading orthopedic surgeons are sending their foot-weary patients for NATURE-TREADS, and today fifty per cent of our Chicago Shop callers have been sent there by doctors or directed by friends who wear NATURE-TREADS. The staff of expert NATURE-TREAD fitters has been increased to make waiting unnecessary.

Money Back Guarantee

Wear Nature-Treads for ten days. If you are not satisfied, return them and we will refund your money. Could anything be more fair?

Nature-Treads Assist Champion

Nature-Treads have entirely removed the callouses from forward part of my feet and have stopped cramping and aching at the balls of both feet. They were more by me to great advantage in my last boxing exhibition when I retained the lightweight boxing championship of the world.

PERSHING PLANS BORDER GUARD AS FIRST WAR NEED

Washington, D. C., July 23.—Steps to establish a "national position in readiness" for the army as a development of the national military policy are forecast in a memorandum recently submitted by Gen. Pershing to Secretary Weeks and made public today at the war department.

The general nature of the project contemplates assignment of national guard divisions to specific defensive positions on coasts and borders to which they would be rushed in the event of war.

Under this plan, Gen. Pershing said, "the military organizations required to secure critical landing places upon our coasts and favorable lines of advance upon our land frontiers can be quickly formed and prepared."

With such initial organization assured, the additional military units required for the prosecution of a serious war can be mobilized at once and brought to full strength without disturbance or interruption.

Gives Navy Free Hand.
"With our territory thus protected against landings in force at the start, and with the machinery for further

military expansion fully organized, our fleet will be free to deal with the hostile naval forces without concern as to possible invasion."

The plan is practicable, Gen. Pershing said, if we can count on a reasonable development of the military system sanctioned by the national defense act.

"With eighteen divisions and appropriate auxiliaries of the national guard, supplemented by the regular army, and with certain special units formed in the organized reserves," he continued, "we shall be able to cover our coasts and land frontiers."

Ordered to Sector.
Gen. Pershing pointed out that where a national guard division might be assigned "a given beach sector" for defense, it would be ordered when mobilized at peace strength to this region, taking up a training area near enough to the actual beach position so as to be immediately available.

The division's first task would be to prepare its beach sector for defense. For that purpose it is planned to provide the divisions with all the data and instruction necessary to enable it to carry out that mission.

"The character of our military resources, as well as our attitude toward other nations, imposes upon us an initial strategic defensive," Gen. Pershing said.

"Had the United States in the spring of 1917 possessed twenty-five or thirty divisions completely organized and equipped, but only trained sufficiently to meet the requirements of the 'national position in readiness' above outlined, each of these divisions would have been advanced many months, as compared with the entirely new divisions it was necessary to create."

ILLINOIS TOWNS FACE DARKNESS; COAL RUNS LOW

Duquoin, Ill., July 23.—[Special.]—Unless some arrangement is made to furnish coal to the power plant of the Central Illinois Public Service company in Saline county this week, thirty-five towns in southern Illinois, among them, Duquoin, Mt. Vernon, Harrisburg, Eldorado, West Frankfort, Johnston City, Marion and Anna, will be without lights.

The plant has only a week's supply of coal on hand. Efforts are being made by company officials to have the miners' union grant permission to operate a Harrisburg mine long enough to lay in a supply to tide them over the strike.

Aphasia Strikes Down
Writer in London.

BY HENRY WALES.

(Chicago Tribune Foreign News Service.)
(Copyright 1922: By The Chicago Tribune.)

LONDON, July 23.—Bitter criticism of the American embassy and consular authorities was made by the press today, owing to their failure to investigate the case of a guest, Edward Garstin Smith of 23 West Jackson boulevard, Chicago, who has been for several days in his room suffering with aphasia, amnesia, and paralysis. The United States authorities here have not taken any action.

Through Mr. Smith's address and note book, which he always jealously guarded, but which the hotel manager obtained stealthily, the address of the paralyzed man's nephew, Capt. E. J. Garstin, living in London and employed at the ministry of pensions, was obtained. Specialists called pronounced Mr. Smith in a critical condition. They said his brain was affected.

Mr. Smith is a publisher and the author of many books and pamphlets attacking the policies of the United States government. He recently wrote a diatribe against prohibition, as a result of which he was arrested in Chicago, but he was freed, and came to London on June 15 to continue work on his new book, "The Real American," in which he violently attacks the curtailments of personal liberty in the United States.

When Mr. Smith was arrested the Chicago authorities raided his office and home, seizing papers and letters, so when Mr. Smith, stricken on July 6, instinctively his address book, refusing or being unable to answer questions concerning the identity of his relatives and friends.

The hotel manager, Mr. Herbert, notified the American consul on July 6 of Mr. Smith's condition, but was told not to worry and the man's identity would be investigated immediately. Although Mr. Herbert called on and telephoned the consulate several times there was no action.

When Capt. Garstin was notified, he advised specialists and night and day nurses, as the doctors refused to permit removal of his uncle, who is 53 years old and was born in England, but

has lived in America most of his life. His wife and two sisters are living in the United States. A large library which he brought to London is in storage pending his location of a permanent home here.

"I cannot understand the apathy of American officials," said Manager Herbert of the Cosmo hotel today. "The American Express company took greater interest than did the officials. If Smith had died, before we found his nephew, he might have been buried in a pauper's grave for all the consulate cared."

Trusting Lad Gives Two Strangers \$350

John Littone, 1949 West Chicago, cherished a desire to enter the restaurant business, and when he met two strangers recently who said they were going to build a large restaurant he was enthusiastic. So Saturday night at Wilson avenue and Sheridan road Littone gave them \$350, all his money, for a share in the concern. They went away.

Arrange Today to Give Up Harrington, Alleged Ponzi

Prospective bondsmen, accompanied by Attorney Forrest Garfield Smith, will confer with Assistant State's Attorney Ernest A. Hodges today to arrange the surrender of Leslie Harrington, alleged Ponzi, a fugitive from justice since several hundred "investors" in his American Novaculite company last winter demanded their money without success.

Look at Your Jar Rubbers with a Glass

GOOD LUCK RUBBER

ORDINARY RUBBER

A section of GOOD LUCK rubber, strongly magnified, shows a firm, close, even texture like the drawing at the left. A section of ordinary rubber, when magnified, is porous, spongy and uneven like the lower picture.

The close firm texture of a GOOD LUCK ring will stand long boiling. The other won't. That's the whole GOOD LUCK story.

GOOD LUCK JAR RUBBERS

come to you packed in the case with the following well-known brands of fruit jars:

PEERLESS

All that the name implies

ANTICIPATING an unusual demand this season for a type of car that would have every convenience for four passengers and provide ample space for bulky luggage, R. H. Collins gave the Peerless Coupe a large portion of production.

The wisdom of his judgment has enabled us to deliver promptly the Peerless Coupe to the many with whom it has found favor.

Those who liked the Roadster now prefer the Coupe, with its additional passenger space. It has speed, lightness and ease of handling.

The Peerless Coupe offers enclosed car comfort in bad weather yet the wide windows open easily with a slight movement of a lever. For additional ventilation, the windshield opens both top and bottom.

Packages, suit cases, golf bags, fit easily into the rear luggage compartment. They can be taken out just as easily as they are put in—the door of the compartment is the width of the car. For smaller packages, there is another compartment, fitted with a lock, just back of the driver's seat.

The interior appointments of the Peerless Coupe are luxurious. The fittings are of Colonial silver. The upholstery of velour harmonizes with the exquisite exterior finish of the car.

For shopping, for touring, for the general use of the small family, for business and professional men and for women who drive their own cars—the Peerless Coupe meets every requirement. Its snug comfort and its speed make it a joy to drive.

There is a Peerless Sedan for those who want to carry five people. A smart trunk deck accommodates their luggage. It is an ideal car for comfortable touring and for town use

Chicago Interested in the Engagement of Miss J. C. Drake

Much interest, both in Chicago and in the east, attends announcement of the engagement of Miss Josephine Chisholm Drake of Rye Beach, N. H., and Edwin Clapp Lincoln of Hingham, Mass.

Miss Drake is the daughter of Mr. and Mrs. Frances Edwin Drake of Rye Beach, and Cleveland, O., and the niece of John B. Drake and Tracy C. Drake of Chicago, and has made many friends in Chicago during frequent visits to her cousins, the younger members of the Drake family.

Miss Drake is a graduate of the Choate School in Brookline, Mass., and returned recently from a year in Europe, where she attended Miss Elizabeth E. Rimmer's school in Rome.

Mr. Lincoln was graduated from Harvard this year, and previously had four years at the Wilton academy, in Massachusetts.

No date for the wedding has been announced.

NEW YORK SOCIETY

New York, July 23.—(Special.)—Miss Liza Stillman, daughter of Mr. and Mrs. Joseph F. Stillman of 35 East 29th street and Southampton, L. I., was married yesterday to Henry Martin Folger of New York, by the Rev. Percy Gordon, assistant rector of St. Bartholomew's church, in St. Andrew's Dune church, Southampton. Miss Mildred Stillman was her sister's maid of honor and the other attendants were Mrs. Vernon H. Brown of New York, Mrs. Eugene M. Sawyer, Mrs. Ester Armour of Chicago, and the bride's sister, Miss Ruth Stillman.

Sydney C. McCall gave a luncheon at Sherby's Saturday for his mother, Mrs. John A. McCall.

Mr. and Mrs. Williamson S. Howell Jr. sail Saturday on the Orizaba for Havana, where Mr. Howell will assume his duties as charge d'affaires of the United States in Cuba.

The Count and Countess de Viel Castel and their three children, who arrived on the France, are at the St. Regis, to remain until they leave for Southampton. Later they will go to Bar Harbor to spend the remainder of the summer with the countess's mother, Mrs. Charles R. Scott, formerly Mrs. Sidney Dillon Ripley.

Admiral de Saranond de la Paole and the Countess de Saranond de la Paole (Miss Langham), who arrived on the France, are also stopping at the St. Regis until they leave for the Adriatic.

WASHINGTON SOCIETY

Washington, D. C., July 23.—(Special.)—Senator De Rube, wife of the ambassador from Spain, will go to Hot Springs the middle of next week to remain a fortnight. After her return to Washington the middle of August she will accompany the ambassador to Newport for the remainder of the season.

The minister of Switzerland, who, with Mrs. Peter, has been at Dark Harbor, Me., where they have a cottage for the season, will return to Washington this week after an absence of several weeks.

The minister of Bolivia and Senora de Ballivan entertained a company on a motor trip to Gettysburg today. They left early this morning, returning this evening for a supper at the legation.

The minister of Bulgaria and Mrs. Panaroff will leave Washington Tuesday for Williamsport, Mass., where they will attend the institute of politics at Williams college. They will not return until September.

Mrs. John R. Mitchell will leave Washington next week for New England to spend the remainder of the summer. Her daughter, Miss Louise Mitchell, who is visiting in their former home in Illinois will join her in the north.

Doris Blake Says

TODAY IS LUCKY FOR THE CONSERVATIVE.

Until noon the planetary influences are sinister, and the asking of favors will be better postponed until later in the day. Pay strict attention to business, and be chary of financial enterprise which involves risk. You whose birthday today is have the augury of a good and prosperous year, providing you avoid quarrels and attend strictly to business. Your weakness is an inordinate fondness for food and drink and the good things of life. You have a marvelous memory which would serve you in remarkable stand did you train it along lines of education. You are inclined to laziness and to the shifting of responsibilities, if there is any one upon whom they may be shifted. A fanciful imagination inspires you to exaggerate and embellish the truth of things. A child born on this day will likely be fond of pleasure and company and should be governed by a positive law and rule of life in order that his passions may be directed into nobler channels.

He Says He Knows Her.

"Dear Miss Blake: A young man with whom I work has been making love to me for quite a time. He never asks me to go out with him. Do you think he really loves me (he says he does), or just makes love to pass the time away? The other day I told him it was all over between us; that I didn't want him to love me any more. He has not been in the office since, but asked me to think it over. Please advise me at once, as he will be in the office in a day or two. Yours, J. G. R."

He may love you, yet may have a practical turn of mind and wishes to be sure his money is not going to be spent upon one whom it might turn out to be a total loss. As the palmist would say, his head line may be much more predominant than his heart line. On the other hand, he may be economical to the point of miserliness. I think I would think it over from these angles, or else come right plump out and tell him why you hesitate. He may not realize how serious is his remission on entertainment.

A FRIEND IN NEED

By SALLY JOY BROWN.

Needs Clothes and Shoes.

"I have been a patient at the Oak Forest Tuberculosis sanitarium for the last eleven months. I am unable to earn anything at present, and am much in need of clothes and shoes. I wish some one could spare some men's clothing, 36 or 37 chest measure. The trousers should be 34 around the waist and 28 in length. I need shoes, size 8 1/2 or 9. Surely there are lots of men of the required size who can spare some clothing for this man, who wants them so much."

Unprepared for Newcomer.

"I am soon to become a mother, and my husband has been out of work for a long time. I haven't been able to prepare for the newcomer and wonder if some mother may have some clothing that her baby has outgrown."

"Mrs. W. C. N.,"

I am certain there are many good friends who will be happy to help this prospective mother.

Skirts Are Beginning to Be in Full Bloom Once More

by Christine Lowe

NEW YORK.—(Special Correspondence.)—As the thermometer goes up the skirtometer comes down. You may wear a skirt six or seven inches above the ground with a suit or for sports wear, but for the afternoon and evening, la la, they are en route to China, burrowing their way right down through the center of the earth. Furthermore, many of the late midsummer models show a decided fullness and the pioneers of the circular movement are located at Newport and Bar Harbor among those women who have brought back their summer wardrobes from the other side. As an example of the new fullness we show this frock adapted from one worn at the Paris races. The busts of this frock is white in either more or less silk and it is bordered in black satin. The waistline is defined by row after row of fine hand tucks and the sleeves follow a model noted in a number of imported gowns. That is to say, the tops are tight fitting and from the hand which terminates this upper section falls the loose under section.

Sunday fashion page will be found in the New Color Section.

Bright Sayings of the Children

The Tribune will pay \$1 for each childish saying printed, if they add most new ones have been printed in any magazine or paper. It is not possible to acknowledge or return unavailable contributions. Please write on one side of the paper. Address Bright Sayings to Amy Bee, Tribune, Chicago.

My mother was selling out her house hold goods, among which was a picture of a dog. She was showing it to a woman standing near the open door.

"After the woman left without buying it, a little fellow in patched overalls came with his nose pressed to the screen and said, 'Gee, I wish I had a job. I'd buy that picture. I just love dogs.'"

He got the picture and without the job.

N. H. B.

Donald was an only child and had few playmates.

When a friend, with her small son, came to spend the day, the two children had a joyous time together. But when the time for parting came, Donald sobbed and would not be comforted.

Finally, "Mamma," he called chokingly, "come and look down my front. I sink my heart is broken!"

Chicagoans Reach Paris.

(Chicago Tribune Feature News Service.) PARIS, July 23.—John F. Jelks Jr. of Chicago, and his bride, who are on their honeymoon in Europe, arrived in Paris today from London, after crossing on the Olympic. They are going to the battlefields of France, and then to Deauville, returning to Paris about Aug. 1.

Black currant should be cooked as tightly and slightly as possible, because its strange, odd odor may be made objectionable with much cooking. It and its products are among our rarities.

For black currant jelly cook first as for jam and drain off the juice. Mix this with equal quantities of sugar, stir until the sugar is thoroughly dissolved, pour into small jelly glasses, cover with a glass, set in sun, and in an hour or two you will have a delicate jelly, preferable to one cooked, but if the juice is hot and on the stove when the sugar is added it will jelly almost immediately. Half red currant may be mixed with the black for jam and jelly.

TRIBUNE COOK BOOK

BY JANE CURRENT JAM.

Black Currant Jam.

One box of black currants should contain four cups, but here is a two cup recipe which can easily be doubled: Wash and stem two cups of black currants, add to them one-half cup of water and cook until the fruit bursts. If the currants are not quite fresh the skins may be tough, in which case it is best to crush them slightly before the cooking. Use same weight of sugar that there was of currants, adding it after they have cooked tender, a little at a time, with constant stirring. When the whole is cooked to jam stage or set, put into glasses or jam pots and treat like jelly.

For nice work the currants should be "topped," as well as tailed, but the dry little blossom is hard to remove, and often cannot be without despoiling the fruit, and it can be washed clean. It does not show when it is colored with the exceedingly rich and thick juice, and is just so much roughage—junk—in the jam.

Black currant should be cooked as tightly and slightly as possible, because its strange, odd odor may be made objectionable with much cooking. It and its products are among our rarities.

For black currant jelly cook first as for jam and drain off the juice. Mix this with equal quantities of sugar, stir until the sugar is thoroughly dissolved, pour into small jelly glasses, cover with a glass, set in sun, and in an hour or two you will have a delicate jelly, preferable to one cooked, but if the juice is hot and on the stove when the sugar is added it will jelly almost immediately. Half red currant may be mixed with the black for jam and jelly.

AUSTRALASIA TO PRESS U. S. DAVIS CUP DEFENDERS

New York, July 23.—The United States will face formidable opposition in its defense of the Davis cup if the Australian team, as is generally expected, wins its way to the challenge round. In the opinion of Harold H. Hackett and Dean Mathey, two veteran American players.

Hackett, captain of the Davis cup team that represented the United States in England in 1913, says the Australians in action at Wimbledon regard them as strong contenders for the trophy.

Mathey, just back from England, offered comment on the virtual play of Gerald L. Patterson, Pat O'Hara, Wood, and James O. Anderson, that shows the caliber of opposition America must face if they reach the challenge round at Forest Hills, Sept. 1, 2, and 4.

Stronger than 1921 Jap Team.

Hackett, in a letter to the United States Lawn Tennis association, wrote: "The Australians—Patterson, Anderson, and Wood—are good. I recommended to the Davis cup committee to spare no effort in selecting the strongest possible American team to defend the cup this year. I consider them much stronger than Japan last year."

Mathey is equally enthusiastic regarding the visitors. "Anderson is much improved over the form he displayed in the country last summer," he said. "It is true that he was disposed to be somewhat erratic at Wimbledon, but at the times when he was really on his game his playing was wonderful."

Will Give U. S. Best Fight.

"With the ample time he will have in the United States to gain full command of his strokes he can be counted upon to give any of our players the stiffest kind of a match."

The Davis cup committee in its efforts to select the strongest doubles combination for the American team has arranged special matches between the two leading pairs, William T. Tilden II. and Vincent Richards, national champions, and R. Norris Williams II. and Watson M. Washburn, the Davis cup team last year. These teams will be closely watched by the committee when they meet next Saturday and Sunday, July 29 and 30, at the Crescent Athletic club, Brooklyn.

FRENCH, AUSSIES SAIL TO U. S. FOR DAVIS CUP PLAY

New York, July 23.—(Special.)—The arrival of the Australasian Davis cup tennis team this week on the steamship Majestic will mark its entry upon the last lap of a journey which, when completed, will have taken the team entirely around the world. Gerald L. Patterson, James O. Anderson, and Pat O'Hara, Wood, comprising the team, will arrive in New York on the Majestic, which will be followed by the French team, led by Vincent Richards and R. Norris Williams II., on the ship *Normandie*, which will arrive in New York on August 1.

Both Patterson and Anderson are well known to the American tennis public. Wood, whose specialty is doubles play, has not appeared here, though his reputation is world-wide. The Australians will play France at the Longwood Cricket club in Boston on Aug. 10, 11 and 12, and the winner will play Spain for the privilege of meeting the United States in the challenge round.

French Team at Sea.

PARIS, France, July 23.—[By Associated Press.]—Henri Cochet, Jean Borotra, and Andre Gobert, constituting the full French Davis cup team, sailed for New York from Havre on the liner *Paris* last evening. Jean Brugnon, who performed so well at Wimbledon, and Jean Samazeuilh, French champion in 1921, were unable to make the trip.

EVANS AND JONES ON WALKER TEAM

Pittsburgh, Pa., July 23.—[Special.]—No selection of the American Walker cup team will be made until a few days before its match against the British amateurs here. This was announced today by William C. Fownes Jr., captain of the American team, who was selected by the United States Golf association. The only players sure of places are Chick Evans, Bobby Jones, and Jesse Guiford.

DULUTH OARSMEN WIN LIPTON CUP

Kenosha, Ont., July 23.—The Duluth Boat club won the Sir Thomas Lipton trophy for the fourth time here at the annual regatta of the Northwestern Rowing association, finishing the program with 125 points, eight ahead of the Winnipeg Rowing club. Kenosha was third with thirty-four.

W. A. Caldwell Drowned; Was Crew Star in 1900

Lake George, N. Y., July 23.—William A. Caldwell of Haverbrook Heights, N. Y., Cornell football and crew star in 1900, was drowned yesterday in Lake George, when a canoe in which he was paddling overturned. Mr. Caldwell, who was early morning general editor for the Associated Press, had been visiting the director of a large hotel alone in the canoe. The body was recovered early yesterday evening.

Managh and Johns Win Illini Summer Net Final

Urbana, Ill., July 23.—(Special.)—Herschel Managh, a graduate of Harvard college, Ind., attending the summer coaching school at Illinois, and Ralph E. Johns, Oak Park, won the doubles tennis tournament by defeating O. L. Tongko and Herbert Buyank of the Philippine islands. Managh also capped the singles honors by defeating M. F. Foster of Champaign.

U. of M. Prof. Wins Golf Honor for Michigan

Flint, Mich., July 23.—Carlton F. Wells, an instructor at University of Michigan, yesterday won the Michigan amateur golf championship, defeating Arthur V. Lee Jr. of Detroit club, 6 and 5. It was Wells' first competition in championship play.

BURDICK AND BASTIAN INTERCITY NET CHAMPS

Cleveland, O., July 23.—Fritz Bastian and Ralph H. Burdick, Indianapolis, national clay court champions, today won the national intercity doubles tennis championship. They defeated Sam Hardy and S. H. Voshell of New York in straight sets, 6-7, 6-4, 6-4. The net play of the Hoosier pair was almost invulnerable.

Bastian and Burdick of Indianapolis, who recently won the national clay court doubles tennis championship, yesterday eliminated Walter Hayes and Alex Squair of Chicago in the semifinals play of the intercity doubles tournament here, 6-1, 6-4, 6-3, 12-10. Sam Hardy and S. H. Voshell of New York defeated the Pittsburgh pair, Charles Garland and William McElroy, without much effort, 6-3, 6-0, 6-3.

The veterans of the two winning teams, Burdick and Hardy, deserve most of the glory that goes to the victors. It was Burdick that came through with the winning strokes when the Indianapolis pair needed them most, carrying Bastian along at a rapid pace. Both Hardy and Voshell played strong tennis, but it was Hardy's apparent leadership that made their victory so certain.

ARGENTINANS AND IRISH WILL PLAY IN YANKEE POLO

New York, July 23.—The Argentine Federation which recently won the British open championship, will leave England for the United States about Aug. 5. The Argentinians will compete in the United States open championship and several special tournaments. Besides Capt. Luis Lacey, the members of the team are Jack Nelson, John Miles and David Miles. The entry of a fourth American team, the Flamingo team, and assurances that an Irish polo team, representative of the All-Ireland Polo club of Dublin, would participate in the American tournaments also, were announced by the Polo association.

TRAP EXPERTS PLAN A BENEFIT SHOOT ON AUG. 6

Leading trap shooters of the middle west will shoot at Lincoln Park Gun club Aug. 6, for the benefit of the Chicago Tribune Algonquin fund. The contest comes at an opportune time for the fund, affording them an opportunity to raise money for the start of the Great Lakes summer tournament at Indianapolis, Aug. 7.

The Algonquin contest will comprise 150 targets at sixteen yards. (Tribune Photo.) The first will be a classification match, 1, 2, 3, and 4. This will be known as the Algonquin classification contest, for which trophies are donated by the Lincoln park trap for first, second, and third. The division of prize money will be under classification, with four money prizes in each of the four classes.

All Algonquin club contest is the second feature of the Algonquin shoot. The five high scores of each contesting club constitute a team, and the high score team will gain permanent possession of the Algonquin club championship cup, donated by the Lincoln park trap.

The Tribune Algonquin fund is to provide a summer vacation for unfortunate mothers and kiddies. One dollar is reserved for the Algonquin fund from each individual fee, and all of the club entrance fees of all goes to Algonquin. All profits accruing from the shoot will be donated to the Algonquin fund by the Lincoln Park club. Among sport notables and sportsmen entered for the shoot are Dave Thomas, Rex Beach, Fred Stone, Frank Trosh and William Wrigley.

YANKS GAIN TWO FLAG FACTORS IN RED SOX SWAP

BY JAMES CRUSINBERRY.

New York, July 23.—[Special.]—Another side of championship stuff was attached to the New York Yankees today, just after the game at the Polo grounds was finished, when Owners Huggins and Huston of the local job cornered President Frazee of the Boston outfit and in some manner unexplained induced him to swap Joe Dugan and Elmer Smith for Johnny Mitchell, Chick Fawcett, Elmer Dugan and a New York pitcher to be selected later.

It was a corking trade for the Yankees. They got a couple of stellar players capable of stepping right into positions on a team in a fight for the pennant, and they gave up three men who have done little but warm the bench this year. Looks as if nothing was lost and two stars were gained.

Nothing was announced to that effect but, of course, there was something going on, and it was reported last night a cash payment of \$100,000 was made by the New York club, in the trade involving Dugan.

To Play Against Browns. Both Dugan and Smith left tonight with the Yankees for the second swing around the Western circuit, and both are expected to be in the battle line Tuesday when the Yankees begin one of those "crucial" series out in St. Louis against the league leading Browns. Fawcett, Mitchell, and Miller, traded away reluctantly with the hopes of Red Sox tonight, with all prospects for glory and gain in another team's series gone.

The two additions will strengthen the Yankees team for the tough battle before them, and may add enough strength to enable the team to crowd back into first place. Dugan undoubtedly will be stationed at third base at once, and the chances are Smith will be in an outfield position within a few days.

Smith May Replace Ruth? Smith may replace Whitey Whit, but the latter has been a great hitter and winning performer all season. Meusel has just swung into a great batting stride. The weak man of the outfit is right now Babe Ruth, and it might be that Smith would take his place, at least for a while, though the Babe still draws them in at the gate. The Boston officials offered no excuse for making the deal, and the only thing that favored their side of it was that they got four men for two. They have weakened their team's offensive strength considerably, as none of the three Yankees obtained today has done much with the bat. All three, however, are fairly strong defensive players.

Yankees' Red Sox in N. Y. This latest trade in the long series of deals between the New York and Boston clubs has given the Yankees ten former Red Sox players and has made members of the Yankees to the Red Sox. The ex-Boston players now with the Yankees are Ruth, Schang, Scott, McNally, Mays, Hoyt, Bush, Jones, Dugan, and the new member of the Red Sox who once were the uniform of the Yankees are Pratt, Walters, Ruel, Riel Collins, Quinn, Ferguson, Piercy, Russell, Fawcett, Mitchell, and Miller.

WEST FRANKFORT AND HERRIN BALL TEAMS TO QUIT. Danville, Ill., July 23.—[Special.]—The last few days have seen the dissolving of the baseball teams at West Frankfort and Herrin, as the result of financial difficulties. These two teams were among the strongest in southern Illinois, and a number of their players have found berths in other teams.

MUDHOLE GRIMES BALKS AT TRADE. St. Paul, Minn., July 23.—Roy Grimes, second baseman with the Toledo American Association club, who was traded to Columbus today, refused to report to the Senators, left the team last night and was reported to be on his way to Toledo. O. Infelder Pecheux of Columbus, who was to have come to Toledo for Grimes, will remain with his old teammates pending further developments, it was said. Grimes is a twin brother of Oscar Ray Grimes of the Chicago Cubs.

Speaker opened with one of his prize runners, George Uhle, who lasted long enough to be walked for three runs by the first five batters who faced him. Jim Lindsey then took up the task and he got his in the third, two more scoring. Jim Edwards was the next offering, and two tallies in the fifth and one in the seventh convinced him he didn't belong in the party. Then Jim Bagby tried his luck for two innings and was slapped for two runs in the ninth. It was no day for any gent named Jim.

Leverett actually pitched a mighty skillful game. A pass and a fluke pop hit helped to score two runs against him in the third and these were all the Indians collected in twenty-one innings off his hurling. After the third he just breezed along easily, his mates aiding him admirably, particularly Hooper, who took care of nine putouts in right field. Eleven hits were made off the Sox rookie, four of them in the ninth.

Open with Big Bombardment. The day's opening was started by Johnson who opened the game with a triple. Collins got on through Uhle's error. Hooper doubled, and Strunk singled. Three runs on that and Uhle's banishment. The next outburst, staged in the third, was due to a double by Mulligan, single by Hooper and two-bagger by Falk, two scoring.

The Sox fifth got under way with Strunk singling after Hooper's demise. Falk also hit for one sock and both scored when Leverett doubled after Falk had been purposely passed, filling the bases. The tally in the seventh was produced by a pass to Falk who rode home on singles by Shelley and Schalk. A double by Shelley opened the Sox ninth. The next two were set down but Johnson poked a single to right and Shelley scored. Johnson went to second on the throw in and counted when Collins singled through short. The only happening after this was Cleveland's ninth which didn't worry anybody pulling for Chicago.

Roush Back with Reds; Gets Ovation from Fans. Cincinnati, O., July 23.—Ed Roush, red-headed outfielder of the Cincinnati Reds, came to an agreement to play the rest of the season. The terms were not announced. His appearance this afternoon in the coaching box along first base clinched a sensation among the fans and a long demonstration was held. Roush's contract runs only till the end of this season.

ALDRIDGE HURLS CUBS TO WIN OVER ROBINS

By Frank Schreiber. Vic Aldridge held the Robins to five hits yesterday and Killefer's batting club took the final game of the series, 4 to 1. The victory was much needed, as it was the last home contest for three weeks, and gave the Cubs three of the five game series.

Coxey Ray Grimes boosted his home run total to nine when he lifted the ball over the right field wall in the second inning. The pill cleared the bricks by eight feet in right center and landed in the bleachers. Grimes had jumped off to a one run lead in the first inning.

Harry Schriver started on the hill for the Flatbush nine and was nipped for nine hits and all of the locally runs in the seven innings he worked. After Grimes' blow had tied the count in the second, the Bears put on a three run spasm in the fifth, which meant the ball game.

Cub Defense Brilliant. Starting in the outfield kept the fans on their feet during most of the struggle. Hollocher and Terry led the Cub infielders, with Barber and Heathcote dividing honors in the outer gardens. For the Robins Myers and Oleson were the feature performers, the latter making several scores of drives that ordinarily are hits.

The Robins gathered their lone run in the first. Myers and Tom Griffith singled and Myers scored on an infield out, but Ray Grimes brought that run back for the Bears with his homer over the right field wall in the second. In the fifth the Bears broke out for the big three runs. After Aldridge was out Heathcote singled and Hollocher pushed a bunt down the third base line and beat it out for a hit. Terry shot a single to center, Heathcote and Oleson scoring on the throw, while he counted on Grimes' sacrifice. Then Schriver uncocked a wild pitch and Terry scored. That was the ball game, for neither team could count after the third inning.

15,000 See Battle. Fully 15,000 cash customers turned out for their final peek at the Cubs for three weeks. The crowd divided their cheers between the Cubs and Robins, for the north side fans are sports.

FAMOUS CHICAGOS IN 5-3 WIN OVER JOLIET

Famous Chicagoans had to ten innings to win a 5 to 3 game from Joliet yesterday at Foyt field in the Midwest League. It was a battle between Dick Kerr, former White Sox, and Alex Freeman, former Cub. The former had the shade, although Long Tom Huggins came to his rescue in the extra session.

Kerr hurried beautiful ball until the eighth. With two gone, Jacobs singled. Kavanagh and Francis walked. They Minko, Schmitt, and Freeman hit singles which netted three runs and a score. DANVILLE PILOT HURT ASTERRE HAUTE WINS 9-2 GAME FROM VETS

Terre Haute, Ind., July 23.—Driving Jackson from the slab in the second and hitting Smith, who relieved him, safely in almost every inning, Terre Haute took the second game of the series from Danville here today, 9 to 2. L. Manager Gillenwater suffered a fractured jaw when struck by a foul tip from his own bat. Shollenberger appeared for the first time in the lineup and was given a rousing welcome by the fans. Score: Terre Haute 9, Danville 2.

Three hundred ushers and policemen will be rehearsed Wednesday and Thursday at the arena in Jersey City in handling the crowd. Mayor Hague is anxious to have the same quiet order maintained that was so evident at the Dempsey and Carpentier bout. LEONARD SCALES 134 1-2; TENDLER KEEN FOR BATTLE

BY HARRY NEWMAN.

New York, July 23.—[Special.]—Bennie Leonard and Lew Tendler have turned into the stretch in their training stunts, and both are reported in great fettle for their twelve round bout at Doyle's Thirty Acres, Jersey City, next Thursday night.

When Leonard quit work this afternoon he weighed in and scaled 184½, so there is now no doubt about his facing Tendler at the regulation lightweight limit, 155 pounds. Incidentally the champion announced that he never felt better in his life, and repeated his assurance that he was going to knock out the Quaker City challenger.

1,000 See Tendler Work. At Oelano, N. J., where Tendler wound up his preliminary work, the crowd were congested all afternoon. More than 1,000 fans made the trip from Philadelphia to get a line on their favorite. The southpaw is keen for the fight to start, and is confident that he will be the next champion when the row is over.

Phil Glasman, manager for Tendler, is going around advising his friends that he will grab Mr. Leonard and grab him early. Glasman thinks that Tendler will punch holes through Leonard when he gets that old left mitt working at the champion's stomach. That left handed swinger sure can rip them in with the best of them and Leonard will have to watch out very closely.

Three hundred ushers and policemen will be rehearsed Wednesday and Thursday at the arena in Jersey City in handling the crowd. Mayor Hague is anxious to have the same quiet order maintained that was so evident at the Dempsey and Carpentier bout. The preliminary between Johnny Conney and Ray Monroe will start promptly at 8:15 and it is expected that the main bout will be put on not later than 10 o'clock.

NEWBERRY CASE GIVEN CLEAN BILL BY TOWNSEND

No Fraud Shown by Investigation.

BY ARTHUR SEARS HENNING.
Houghton, Mich., July 23. [Special.]—The \$200,000 Newberry campaign fund in 1918 appears to be the foremost issue in this Republican primary election.

It is a false issue, Senator Townsend says, trumped up by his opponents to divert attention from their unwillingness or inability to meet other issues of greater moment to the people in this period of post-war reconstruction.

These other issues, such as the tariff, taxes, transportation, the relations of capital and labor, good roads, the St. Lawrence seaway and agricultural aid, the senator discusses one or two at a time in his platform speech.

But the defense of his vote in the senate for Newberry he never fails to present at every city mass meeting and cross roads talk.

Newberryism the One Topic.

Although the election of Senator Newberry in 1918, when his primary campaign expenditures were an issue, constituted a vindication by the majority of Michigan Republicans, the vindication of Newberry by the Supreme court split by the senate is the one topic on which every gathering of voters wants to hear the views of Senator Townsend.

The chairman of every meeting he has addressed on this tour has devoted most of his introductory talk to the remarks on Newberryism, to which facts the senator has attributed the necessity of spending so much time explaining the Newberry case to the audience of more important questions.

Approval of the senator's analysis of the Newberry case, showing that no corruption or illegal expenditures were involved, was registered unmistakably at a large meeting here last night. Applause greeted his statement that the Supreme court had found Newberry was tried unfairly.

"Do you believe the twelve jury-men who tried him were dishonest or wrong," shouted a man in the rear of the crowded hall, the first heckler encountered on the journey through the Upper Peninsula.

"I believe they were wrong, I do not believe they were dishonest," flashed back Senator Townsend. The heckler subsided and after brooding over the matter for a few minutes arose and stalked out of the hall. He was identified afterward as one of the few Democrats in these parts.

Campaign Fund Excessive.

Then Senator Townsend went on to say that while the Newberry fund was not used wrongfully it was an excessive campaign fund.

"There is a public sentiment which should be regarded," Senator Townsend said, "when you mention \$176,000, it seems like a lot of money, especially to those who do not stop to think that Michigan is a big state and that to write a single letter to each voter would cost \$25,000. But the money was spent and the facts were reported. Yet, knowing all this, the voters went to the polls and elected Truman H. Newberry. After the election, Mr. Newberry's attorneys, acting through the attorney general at Washington, brought suit against Mr. Newberry. They charged fraud and a conspiracy to spend more than the law allowed.

"When the case came to trial the judge ruled out the fraud charge, as there was no testimony to support it. Truman H. Newberry and his friends were convicted, however, of conspiracy under a charge of the court, which, I believe, and which I am not alone in believing, was unfair and improper. The United States Supreme court decided that it was an unfair trial and set aside the law as unconstitutional.

No Corruption Shown.

"I would have voted to unseat Mr. Newberry if I had believed that there

was any fraud in the election. There was no corruption shown. You voted for Newberry and one of my opponents voted for him. Did any of you sell your votes? Of course not. Yet, they tell you that the election was purchased.

"I think that Mr. Newberry's friends very unwisely spent too much money. I believe that Mr. Newberry would have had a bigger majority if less money had been spent. I voted to seat Mr. Newberry, and I also voted for the resolution condemning the use of excessive sums of money in the campaign.

"That is the issue raised by my opponents. They say I voted for Mr. Newberry. I did. I would do it again under the same circumstances, and if I knew it would hurt me with that kind of people."

MAY PUNISHED OUT OF WINDOW.

In a drunken quarrel in a building at 1300 West Roosevelt road early yesterday morning William Laver was pushed out of a second floor window. He sustained possible internal injuries.

POLAND SOLVING CABINET CRISIS, CONSUL HEARS

Zygmunt Nowicki, the Polish consul general at Chicago, received the following cable from Warsaw Saturday. "Although the cabinet crisis has not ended, negotiations, participated in by Marshal Pilsudski, are going on among the political parties and promise to come to a full conclusion in a short time. The country is encountering no difficulties in accomplishing its external and internal policies.

"The orderly functioning of all branches of the government do not justify the fears arising outside the country from certain escapades, given wide publicity, of impassioned individuals. These minor acts are explained as being due to prelection activities. The great distance magnifies certain differences of opinion, purely political, which exist in the nation."

INDUSTRY BEGINS TO FEEL PINCH OF BIG STRIKES

The New York Times.

New York, July 23.—[Special.]—While efforts to bring about a settlement of the coal strike and the railroad strike were followed with close attention last week, an interesting phase of the situation lies not in the steps which may be taken to end the difficulties but rather in the degree of injury which has been brought upon the industrial country by a result of the curtailment of coal production and the tying up of transportation. Hereafter opinion has veered to the belief that an early termination of the coal strike is expected and the outward circumstances which have surrounded week after week have been somewhat overdone. To a certain degree a condition has been brought about in industrial affairs which it will take a considerable period of time to rectify even assuming that both strikes terminate abruptly.

Fuel Shortage Pinches.
From such reports as come to hand it is shown that the pinch of a fuel shortage is already being experienced in many avenues of manufacturing activity. It probably does not mean that fuel supplies have been exhausted, but it does indicate that heavy inroads have been made on normal surplus stocks, and the reduction of these stocks probably shows a scaling down of operations for some time to come even if coal production picks up and transportation for fuel is assured.

But it will be no easy matter to bring coal production back to normal and there is a serious doubt as to whether care will be available to transport coal in the quantity that is needed to quickly-revitalize industry. The effect that the coal strike has had on production can best be realized by a glance at comparative figures. For instance, in the month of March anthracite production reached 3,747,000 tons, and in April production had dwindled to 2,600,000 tons. Production for May was 3,500,000 tons and in June 4,000,000 tons. The total for the first half of the year has been 21,225,000 tons, as compared with 45,485,000 tons in the corresponding period of 1921.

Heavy Drop in Soft Coal.
Likewise, there has been a heavy falling off in bituminous production. In March the output was 16,157,000 tons, but in April the figure had dropped to 15,787,000 tons. It was about 5,000 tons higher than this for May, and about 7,000 tons higher for June. However, since production in the first three months of the year was well above that of 1921, a comparison of the six months' figures is not so unfavorable as in the anthracite production. The total for the first six months was 107,125,000 tons as against 124,115,000 tons in the corresponding period a year ago and 207,740,000 tons in the first half of 1920.

It will be seen then that even if the present coal strike is terminated shortly, production of fuel can hardly be brought back to normal for many weeks. And with the reserve supplies of industry at low ebb there is no reason to doubt that a serious situation exists. Naturally, talk of a rationing of coal supplies is something which cannot be viewed other than with some alarm when looked upon from the industrial angle. Any rationing of fuel supplies would of course discriminate against manufacturing activities, and there might ensue a serious check to the recovery which has been taking place in industrial activities of the country.

Wall Street Taker Notice.
Wall street has been optimistically inclined all along. In fact, there has been something of a disposition to ignore the unfavorable situation which is being created. However, last week irregularity in the stock market led to the fact that Wall street's opinion was undergoing a change and that greater heed was being paid to conditions affecting industry. There was no weakness of a pronounced character in stock prices, but otherwise there was no desire on the part of traders to advance quotations by active bidding for stocks.

The foreign situation has shown no pronounced change for several days, and the foreign exchange, awaiting definite developments, have moved rather aimlessly. Much that has been said with regard to the reparations question and Germany's finances has been of doubtful character, and while it may indicate a trend of opinion, the entire question remains one of great doubt so far as concrete proposals for an alleviation of the financial crisis are concerned.

Certainty of Allied Control.
That which seems to be clear is that there will be allied control of German finances so that there may be some definite basis arrived at for meeting reparations demands when they fall due. The agreement to grant a moratorium to Germany, as was to be expected, does not by any means have universal support. However, it seems that action looking toward a moratorium will probably be taken in France will probably be more open to the situation as time passes.

So far as a remission of the English debt to France was to have been the basis for a reduction in reparations to \$4,000,000,000 gold marks, it seems that the proposal without any governmental sanction, and while it may be that some development along this line will come about by a general remission of interrelated debts, this subject as yet is in a very hazy state.

Sentiment Is Improved.
However, if nothing else has been accomplished, the discussion of ways and means to bring about a better financial situation in Europe has served the purpose of creating a better sentiment regarding the outlook. It is probable that this week will see more tangible evidence of the news which are being made in international finance.

Our own investment market last week saw further evidence of the accumulation which is going on in high grade securities. Liberty bonds in several instances have moved up to the highest prices on record, the impetus for this advance being derived from the demand of institutions for governmental issues.

WANTED—MALE HELP.

Professionals and Trades.

WANTED—BY THE CHESAPEAKE AND OHIO RAILWAY COMPANY FOLLOWING RAILROAD MECHANICS AND HELPERS AT THE RATES OF PAY ESTABLISHED BY THE UNITED STATES RAILROAD LABOR BOARD: 70 CENTS PER HOUR—MACHINISTS, BOILERMAKERS, BLACKSMITHS, SHEET METAL WORKERS, ELECTRICAL WORKERS, AND PASSENGER CAR REPAIRERS. 68 CTS. PER HOUR—FREIGHT CAR REPAIRERS. 47 CTS. PER HOUR—HELPERS IN ALL TRADES. SUED. Cornelius Vanderbilt Whitney, accused by famous Oriental dancer of being the father of her child.

[Underwood & Underwood Photo.]
ANY RESEMBLANCE? This is the 18 months boy said to be the son of young Whitney.

LOVE FOR "SONNY" WHITNEY IS DEAD. Miss Evan Burrows Fontaine, mother of the 18 months-old boy, doubts if she will ever marry the man who she says

is the father of her child. Her two suits involve "Sonny's" promise to wed and the boy's paternity.
